Postgres Jumble

Unscramble each of the clue words. Copy the letters from each numbered square to the bottom squares to solve the phrase.

BAEASTAD

PEON RSCUEO

UTRSIDBEITD

A horizontal number line starting at 0 and ending at 100. Major tick marks are present at intervals of 10, labeled 0, 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100. Three circles are placed on the line: one at the 16 mark, one at the 19 mark, and one at the 8 mark.

RENATIOALL

A horizontal line with tick marks. The first tick mark is labeled '2' below it. The fifth tick mark is labeled '11' below it. The eighth tick mark is labeled '7' below it. There is one circle at the second tick mark. There are two circles at the eleventh tick mark, with a gap of seven units between them.

EVCTOLYI

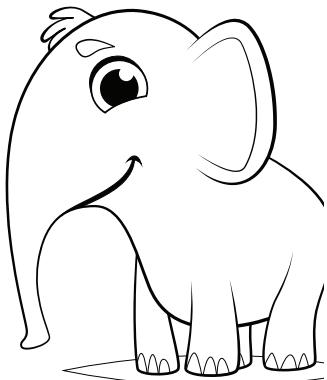

A horizontal number line starting at 0 and ending at 100. Major tick marks are placed at intervals of 10, labeled as 0, 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100. Between the labeled values, there are 7 unlabeled tick marks. The first three labeled tick marks are 12, 20, and 15.

PGPNENIAH

A horizontal number line starting at 0 and ending at 20. Tick marks are placed at every integer from 0 to 20. The tick marks are labeled with their corresponding values: 5, 4, and 18. There are 16 empty rectangular boxes for writing numbers, positioned below the line between the labeled tick marks.

ULMTI TNATNE

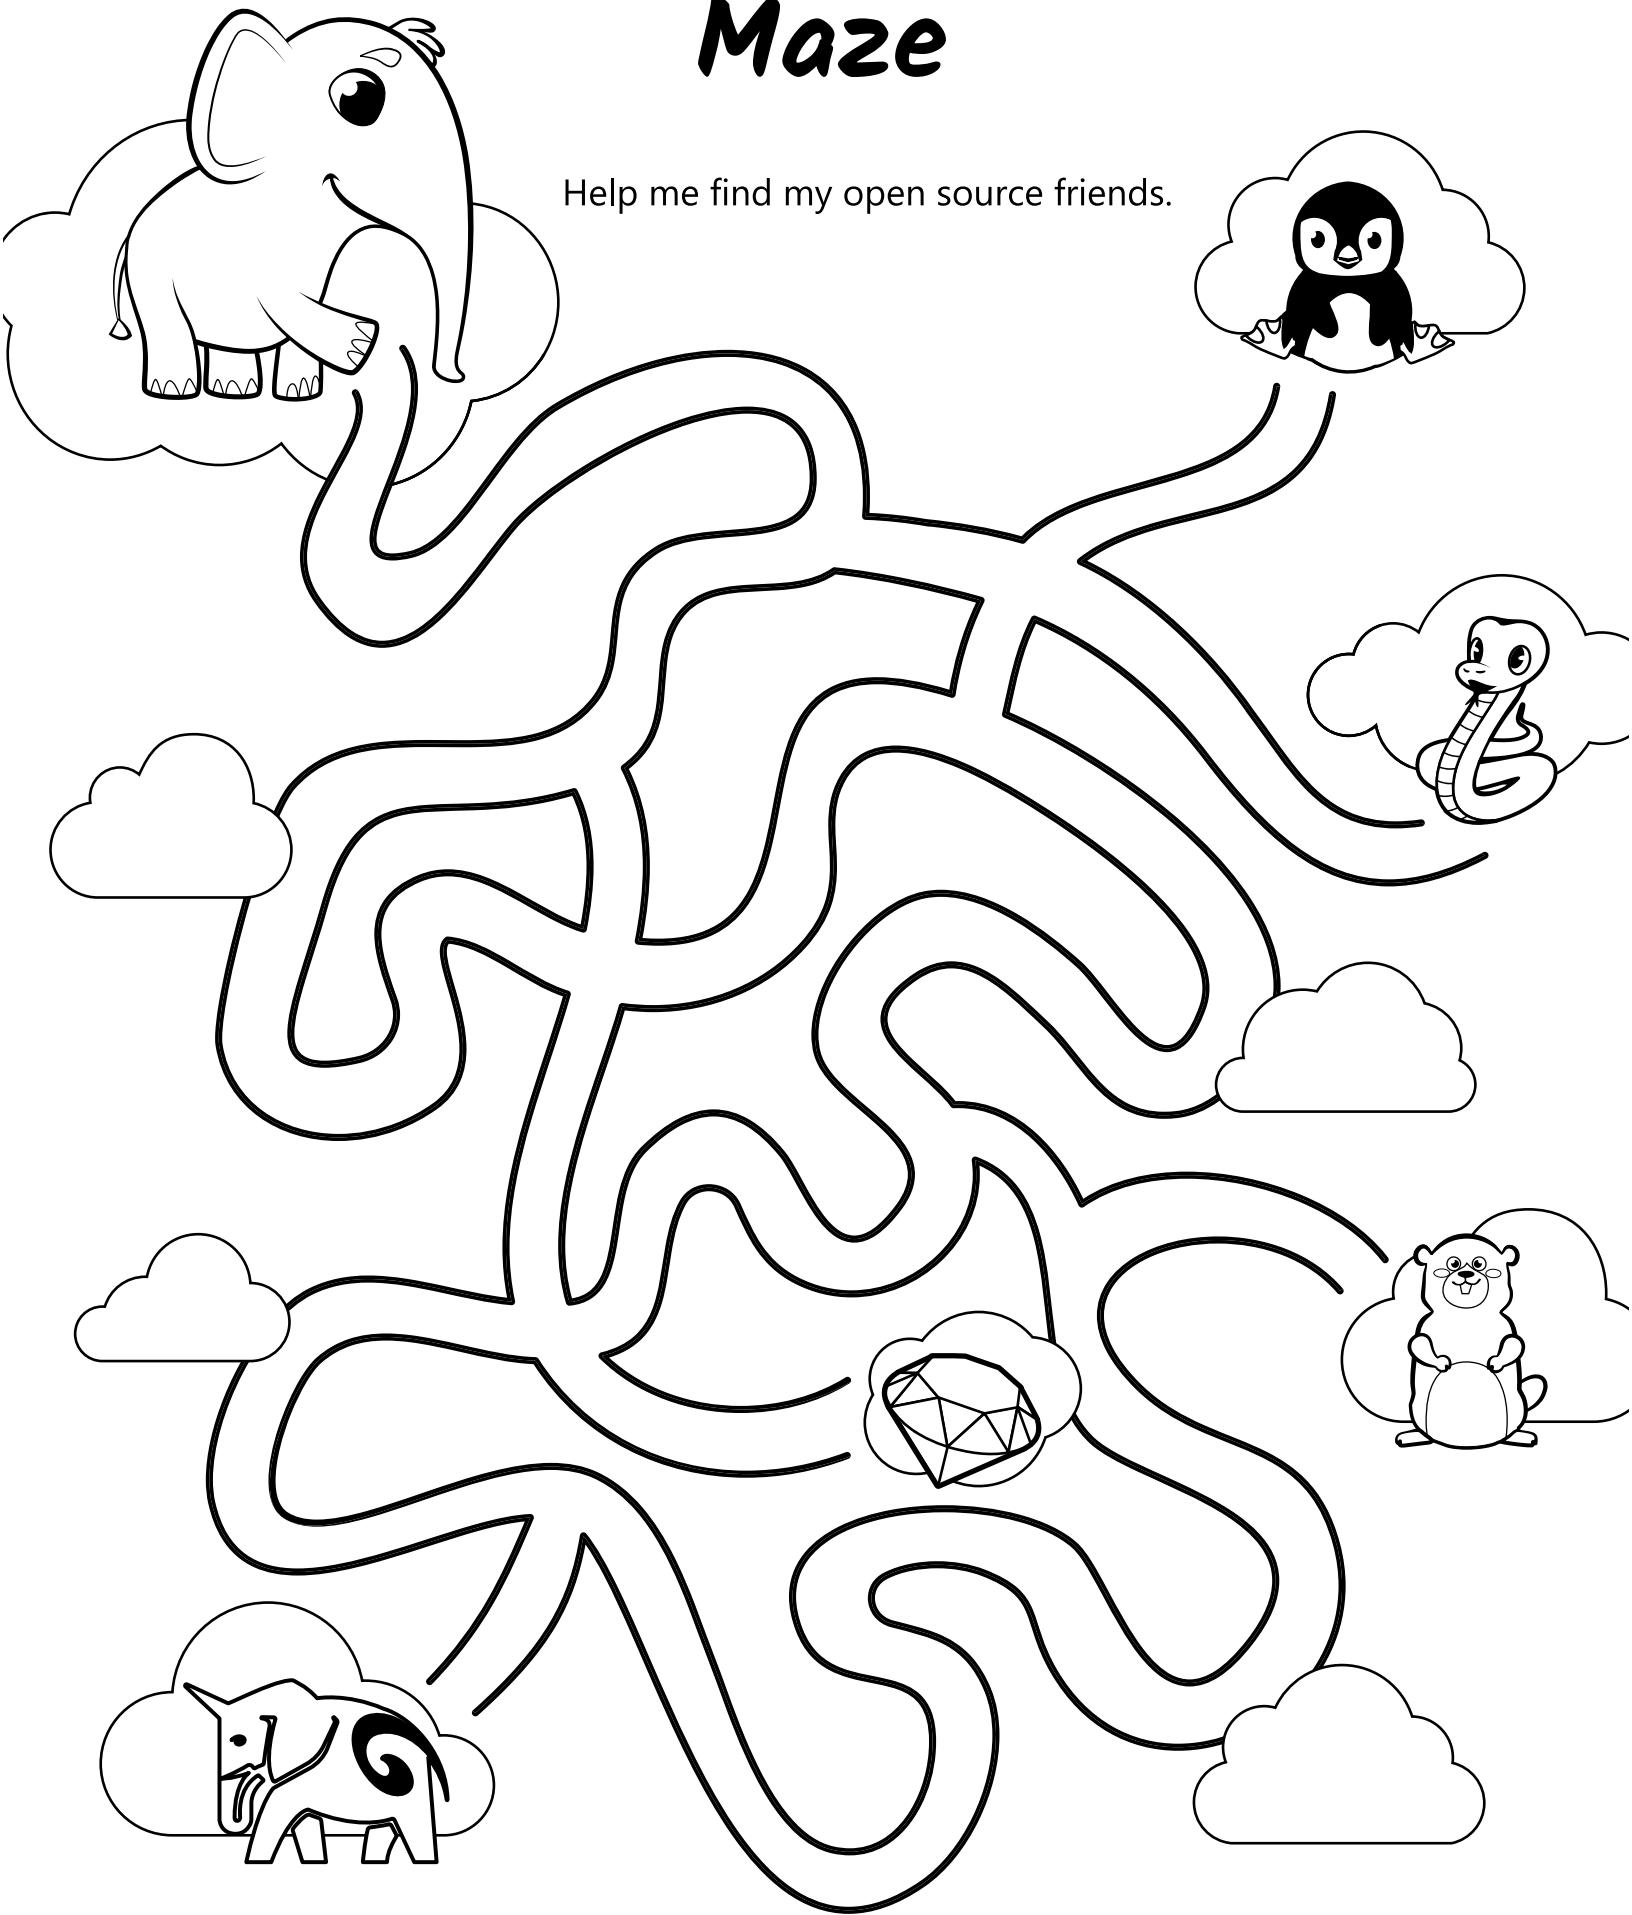

The figure consists of two horizontal number lines. The left number line has tick marks labeled 10, 3, and 17. The right number line has tick marks labeled 1, 2, 4, 5, 6, 8, 9, 11, 12, 14, 15, 16, 18, and 20.

Now arrange the circled letters to form the surprise answer!

Color the Citus Elicorns

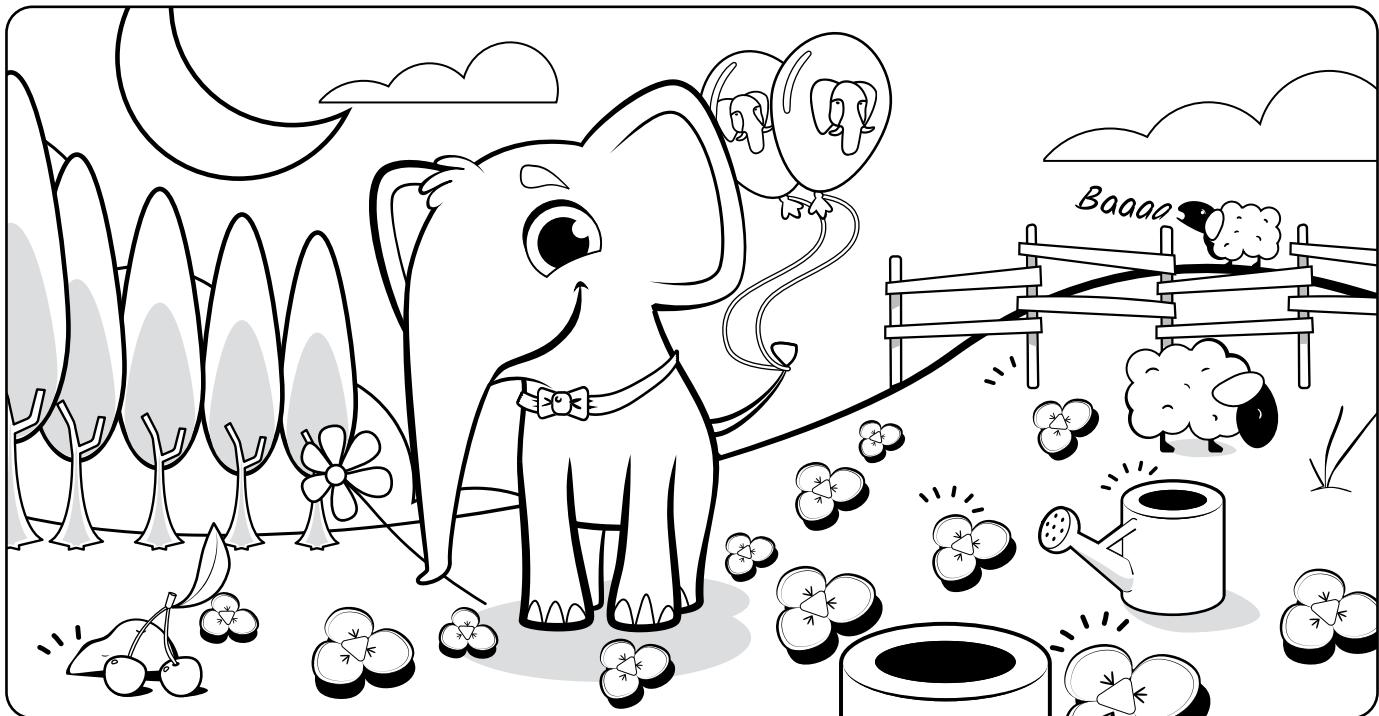

A = Green **B** = Red **C** = Orange **D** = Black **E** = Yellow
F = Royal Blue **G** = Light Blue **H** = Pink **I** = Grey **J** = Brown

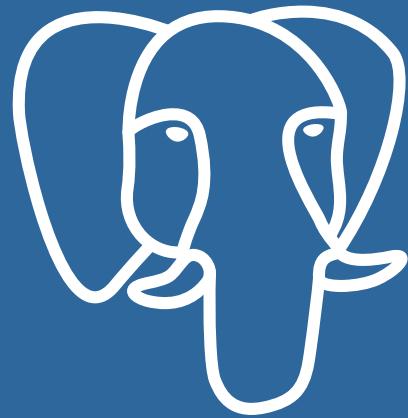

The Citus 'elicorn' is a magical combination of an elephant with a unicorn. You could call it a 'uniphant' too, but 'elicorn' just sounds better. Right?

Spot “8” Differences
